Vision Wellness

Your health and the health of your family are better protected under an NVA vision program. NVA has created an evidence-based, research-oriented set of programs using evidence-based clinical standards to focus in the following areas:

- Keeping you and your family healthy
- Early identification of potential health issues even when symptoms are not visible
- Reducing the potential negative effects of already diagnosed health issues

In healthcare one size rarely fits all. Our health needs naturally change over the course of our lives. NVA has created [US Center for Disease Control and Prevention \(CDC\)](#) (opens in new window) categories to tailor programs to the specific needs of you and your family.

- [Infants/Toddlers](#)
- [Children](#)
- [Adolescents and Teens](#)
- [Young Adults](#)
- [Older Adults and Seniors](#)

Keeping you and your family healthy

Infants/Toddlers (Birth to 3 years old)

Babies are not born with fully developed ocular systems. Parents play a big part in the proper development of their child's vision. Some proactive steps parents can take to help ensure good eye health include:

- [Watch for signs of eye and vision problems](#)
- [Schedule regular comprehensive eye examinations](#)
- [Proper nutrition](#)

Important COVID-19 Message ... States are now permitting the resumption of routine eye care services such as eye exams and contact lens fittings. It is recommended to reach out to your eye care provider before visiting the office to ensure you know what safety and sanitation protocols they have in place, in addition to confirm hours and/or other changes. If you are having a medical eye emergency seek care at the nearest emergency room, if you are unable to reach your provider.

NVA Smart Buyer® Guides

In addition to viewing your eligibility and vision plan coverage, printing ID cards (if available through your plan), accessing [Frequently Asked Questions \(FAQ\)](#) and saving on [LASIK](#) surgery, NVA now offers a program that provides you with the tools to become an educated consumer of vision care services and eyewear. The NVA Smart Buyer® will help you use your vision benefit to its full potential while keeping your out-of-pocket expenses to a minimum.

SPH:
The spherical number specifies how strong your lenses need to be to correct your vision. A negative sign implies a nearsighted prescription while a positive sign is farsighted. The higher the number the stronger the correction.
