

PRESCRIPTION DRUG BENEFITS

EXPRESS SCRIPTS (RxBENEFITS)

If you elect to participate in either of the medical plans offered by Archer & Greiner, you are automatically enrolled in the corresponding prescription drug plan. Your prescription drug benefits are administered by Express Scripts (ESI). Prescription drug costs count toward your medical plan’s out-of-pocket maximum in both the HDHP and POS plan, and they also apply toward your deductible in the HDHP.

	HDHP	STANDARD POS PLAN
BENEFIT DESCRIPTION		
RETAIL (up to a 34-day supply) Generic Preferred Brand Non-Preferred Brand Specialty	Plan pays 80% after deductible	\$15 copay \$40 copay \$75 copay Plan pays 80% - no deductible
MAIL ORDER (up to a 90-day supply) Generic Preferred Brand Non-Preferred Brand	Plan pays 80% after deductible	\$30 copay \$80 copay \$150 copay

QUESTIONS?

If you have questions related to your prescription drugs, please contact RxBenefits’ Member Concierge Team for assistance at **800.334.8134** or via email at **CustomerCare@rxbenefits.com**.

PRESCRIPTION DRUG BENEFITS

EXPRESS SCRIPTS (RxBENEFITS)

SAVEONSP PROGRAM

Through the Accredo Specialty Pharmacy, you also have access to SaveOnSP program, which for certain specialty medications could mean no cost for you. Contact SaveOnSP at **800.683.1074** to see if your medications are eligible for this program.

EXPRESS SCRIPTS & GOODRX

Express Scripts Price Assure

Express Scripts teamed up with GoodRx to help you and your family members save money on your prescription drugs! Express Scripts' Price Assure program automatically discounts your prescription drugs when a discount is available. All you need to do is show the pharmacist your Express Scripts member ID card when picking up your prescription at a GoodRx participating pharmacy. If GoodRx's price is the lowest, that is all you will pay!

- Discounts apply to generic medications that are covered by your plan, excluding specialty generics.
- Your out-of-pocket costs are applied towards your plan's out-of-pocket maximum in both plans and towards your deductible in the HDHP.

COMPARE PRICES & SAVE WITH GOODRX

GoodRx is still available for select preferred brand, non-preferred brand, and specialty medications. Compare prescription drug prices at local and mail-order pharmacies, and discover free coupons and savings tips. Learn more and start saving today by visiting **www.goodrx.com**. When you use GoodRx, your prescription costs do not accumulate towards the plan's out-of-pocket maximum and/or deductible.

PREVENTIVE GENERICS - \$0 COPAY

Archer's prescription drug plans include preventive medications for many conditions under this program including asthma/COPD, diabetes, cholesterol, etc. at no cost. If an employee uses a generic preventive medication that is included in this program, that prescription **WILL NOT** be subject to a deductible and **NO COPAY** will apply. For specific questions, please contact RxBenefits at **800.334.8134**.

MANDATORY MAIL ORDER PROGRAM

Members must use Express Scripts Home Delivery (Mail Order Program) for maintenance medications. Once the initial prescription and one additional refill is made at the retail pharmacy, the Mail Order Program is mandatory for coverage of ongoing prescriptions.

SAVE MONEY WITH THE HOME DELIVERY PROGRAM

If you are enrolled in the HDHP, you will receive greater discounts on your prescriptions when you use home delivery. If you are enrolled in the Standard POS plan, you will receive a 90-day supply for the equivalent of two (2) retail copays. Getting started with home delivery is easy:

- Visit **www.express-scripts.com** and create an account. Be sure to have your medical ID number and SSN nearby.
- Ask your doctor to send your prescription(s) directly to Express Scripts
- Complete a home delivery order form and return it to Express Scripts along with the 90-day prescription from your doctor with refills for up to one year (if applicable)
- Contact RxBenefits' Welcome Team directly at **855.649.3641** or via email at **Welcome@rxbenefits.com**
